PROFESSIONAL SUMMARY

Results-driven **Data Analyst** with strong expertise in data cleaning, visualization, and statistical analysis. Proficient in **Python, SQL, Excel, and Power BI**, with a track record of transforming raw data into actionable insights that improve business decision-making. Skilled in data modeling, dashboard development, and predictive analytics.

SKILLS

Technical Skills:

- Programming: Python (Pandas, NumPy, Matplotlib, Seaborn)
- Databases: SQL (MySQL, PostgreSQL)
- Data Visualization: Power BI, Tableau, Excel
- Tools: Jupyter Notebook, VS Code, Git, Excel (Advanced)
- Statistical Analysis & Machine Learning

Core Competencies:

- Data Cleaning & Preprocessing
- Exploratory Data Analysis (EDA)
- Dashboard Development
- Data Modeling
- Business Intelligence
- Predictive Analytics

PROJECTS

1. Resume Parser & Career Recommendation System

- Built an automated resume parser using **Python & NLP** techniques
- Extracted key information such as skills, experience, and education
- Improved resume screening efficiency by **40%**
- Technologies: Python, NLP, Regex

2. Sales Data Analysis Dashboard

- Developed an interactive **Power BI dashboard** to track KPIs
- Identified trends leading to **15% increase in revenue optimization**
- Cleaned and analyzed datasets using SQL and Excel

3. Customer Segmentation Analysis

- Performed clustering using **K-Means algorithm**
 - Segmented customers into groups for targeted marketing
 - Increased marketing ROI by **20%**
-

EXPERIENCE

Data Analyst Intern

XYZ Company | Remote

Jan 2025 – Mar 2025

- Analyzed large datasets using SQL and Python to identify trends
 - Built dashboards in Power BI for business reporting
 - Reduced data processing time by **30%** through automation
 - Collaborated with teams to improve decision-making using data insights
-

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science

XYZ University, India

2022 – 2026

CERTIFICATIONS

- Data Analytics Certification – Google
 - Python for Data Science – Coursera
 - SQL for Data Analysis – Udemy
-

ACHIEVEMENTS

- Solved **200+ data analytics problems** on platforms like LeetCode/HackerRank
- Built **multiple end-to-end data projects**
- Strong understanding of real-world business analytics
