SUMMARY

DevOps Engineer with 5 years of experience in cloud infrastructure, automation, and CI/CD. Expert in AWS, Terraform, and Kubernetes. Passionate about building reliable, scalable, and secure deployment pipelines.

EXPERIENCE

Jan 2021 – Present

Senior DevOps Engineer

HCL Technologies, Chennai

- Architected and maintained Kubernetes clusters on AWS EKS handling 500+ microservices.
- Reduced infrastructure provisioning time from 2 days to 30 minutes using Terraform IaC.
- Designed GitOps workflows with ArgoCD, achieving zero-downtime deployments.
- Implemented monitoring and alerting with Prometheus, Grafana, and PagerDuty.

Mar 2019 – Dec 2020

DevOps Engineer

Tech Mahindra, Pune

- Built and maintained Jenkins CI/CD pipelines for 20+ application teams.
- Migrated on-premise workloads to AWS, reducing infrastructure costs by 30%.
- Wrote Ansible playbooks for automated server configuration management.

SKILLS

AWSKubernetesDockerTerraformAnsibleJenkinsGitOps/ArgoCDLinuxPythonBashPrometheusGrafana

EDUCATION

B.E. in Information Technology

Anna University, Chennai — 2019 | CGPA: 8.1/10

CERTIFICATIONS

- AWS Certified DevOps Engineer – Professional (2022)
